To the Superintending School Committee and Citizens of Canaan:

I have the honor of presenting to you my second annual report of the condition and progress of your schools.

The school census of April 1, 1926, shows a total of 223 persons between the ages of five and twenty-one years.

During the past year the attendance has been very good. We have been very fortunate in not having any contagious diseases spread through our town. With the exception of the ordinary colds that children have our children have kept well during the entire year.

On Monday, September 6, our schools opened with three teachers in the village schools and one rural teacher.

During the fall term, Miss Helen M. Weeks taught grades one, two and three; Miss Vera G. Brown, grades four, five and six; Lloyd P. Schillinger, grades seven, eight and nine; Mrs. Nettie W. Holt, the Nason school.

During the fall term a great many new pupils entered our village schools so that by the end of the fall term Miss Brown had fifty pupils.

At a meeting of the school committee and superintendent, it was deemed best to hire another teacher thus making four teachers in the village schools, Miss Ella Morrison, a Farmington Normal graduate and a teacher of experience has been hired.

During the winter and spring terms the village teachers will teach grades as follows:—

Miss Helen M. Weeks, grades one and two; Miss Ella Morrison, grades three and four; Miss Vera Brown, grades five and six; Mr. Lloyd P. Schillinger, grades seven, eight and nine.

You will notice in this report that three teachers have two grades each to teach. This is done that the pupils may get a better start as they begin their school life and that by the time they get through the sixth grade they will be well fitted to naturally take the work of the next higher grades.

Throughout our country there are too many children whose education has been very seriously handicapped by not having the proper training when they first entered school.

The foundation of a child's education cannot be built too strong. It is not only a privilege but a duty of every parent and citizen to know what a good school system is. The more we understand about a good school system the more we will insist that our town maintain the best.

We are very fortunate in having such an excellent corps of teachers. All of them have had experience in teaching and

three of them are normal graduates. Everyone of our teachers are interested in all of their pupils and are giving their best for them.

The thing that is very noticeable this year and worthy of mention here is the way the pupils are applying themselves to their tasks. When you see them on the playground you will notice that they are a very active group of boys and girls. If you follow them into the school room you will find that they settle down to study in a remarkable manner. They are applying themselves to their work better this year than they did last year. This application is due to the interest of the teacher in the work and to the desire of the pupil to learn.

TEXT BOOKS

Our books in Arithmetic, Geography, Spelling and English are uniform throughout the schools.

We are very much in need of more readers in all grades. The more readers we can have the better it will be for our pupils. The more the pupils can read intelligently the better students they will be. If we can have the same amount of money for books that we had this year we shall be able to have more new readers next year.

REPAIRS

The repairs which have been done this year have been on the building, known as the high school building. The walls of the two rooms and halls have been painted. All of the wood work in the building has been painted. The chimney has been topped out and a book room built. A partition has also been built making two rooms downstairs.

In conclusion I wish to thank the parents for the interest they are taking in having a good school system; the school committee for the strong support they have given; the teachers for their loyalty to their every day tasks.

Respectfully submitted,

WILLIAM M. BOTTOMLEY,
Superintendent of Schools.

Preserve This Report

A sufficient number of these reports have been printed to furnish every interested citizen with a copy. An effort has been made to get them into the hands of the voters in advance. It should be borne in mind that if copies are left at home there may not be a sufficient number at the hall to go around on town meeting day. This year or any year it is desirable for you to have a copy of the annual report as soon as issued. It is also important for you to preserve it and bring it with you town meeting day morning.

To the Superintending School Committee and Citizens of Canaan:

I have the honor of presenting to you my third annual report of the condition and progress of your schools.

The school census of April 1, 1927, shows a total of 244 persons between the ages of five and twenty-one:

On Tuesday, September 6, schools opened with four teachers in the village and one rural teacher.

We are very fortunate indeed in having the same village teachers we had last year, namely: Miss Helen Weeks, Miss Ella Morrison, Miss Vera Brown and Mr. Lloyd P. Schillinger. Miss Florence Stinchfield, a Farmington Normal graduate is teaching the Nason school. The longer we can keep good, faithful teachers the better it is for our schools. One of the worst things that can happen to a school system is to keep changing teachers every year. If there must be a change of teachers let it be to get better teachers. The best teachers are none too good for the children of Canaan.

Again we are fortunate that almost all of our teachers are capable of teaching music. Miss Morrison teaches music in the third, fourth, fifth and sixth grades and Miss Brown teaches penmanship in the same grades. We have bought the Hollis Dann music books for grades three, four, five and six and next year we hope to be able to purchase music books for the seventh, eighth and ninth grades.

Since the days of the old time singing school, when the young people and the old people met in the evening at one of the little red schoolhouses and learned to sing, have gone never to return, music has been carried on very largely by the schools. Two or more towns have united in hiring a music teacher to teach music one or more days a week in each town and to plan the work for the teachers during the rest of the week. Such a plan has worked out very successfully for small towns and I hope in the near future we may be able to have a music teacher to teach and direct the music in our schools.

What the pupils have learned about music this year is very gratifying. It shows that teachers are very much interested in their work for the good of the children. Some who were unable to carry a tune at the beginning of the year are now singing in harmony with the rest of the pupils. We find that we have very few pupils who do not have a voice for singing. However, the few who are unable to sing ought to learn to read music so as to be better able to play on some musical instrument if they should so desire and to be able to

better appreciate music rendered by others. The time for children to learn to sing and play is when they are young.

During this school year we are putting more stress on reading than on any other subject. This is being done because we consider reading the key to all of the other subjects. Unless a pupil is able to read intelligently, he cannot do his Arithmetic, Language and Geography as well as he otherwise could. By reading we do not mean simply to pronounce words correctly or to give the correct inflection. By reading we mean that a pupil should get the correct thought of the selection read and should be able in his own words to make others see clearly that same thought. The other studies will not be neglected but by improving the reader every subject he takes will be improved.

When through the recommendation of the school committee the citizens of the town voted to purchase land behind the high school building so that the children might have a larger and better play ground, they did a very good thing for the school children. This gives the pupils a chance to play baseball and many other games and keeps them out of the road where some would be likely to get hit by a passing automobile.

The citizens of the town of Canaan and especially those who have children are to be congratulated on having such a splendid graded system of schools. Many towns larger than yours have neither a better school system nor any better teachers. This has been brought about largely through the untiring efforts of the members of your school committee. They are very much interested in the best schools for your children. They realize as never before that while the one teacher school had its time and place, today that kind of a school cannot educate the boy and girl as he should and must be educated in order for him to take his proper place in the world.

Below you will find a list of the students who are attending high school and the name of the high school where each student is attending.

TEXTBOOKS

We have a good supply of books for the first six grades. These books are in good condition and we plan to keep them in good condition. We are teaching the pupils to take the best of care of their books by keeping the leaves clean and by being careful about breaking the bindings. Grades seven, eight and nine need more readers, new histories and music books.

REPAIRS

All of the woodwork on the high school building has been painted two coats. The roof of this same building has had a coat of roofing cement. Both sides of the partition that was put up last year have been painted. Sixteen new curtains have been purchased for the high school building. For grades three, four, five and six we have purchased forty-eight running feet of slate blackboard.

In conclusion I wish to thank the parents for the support they have given by having their children attend school regularly; the school committee for their strong co-operation; the teachers for their painstaking efforts in giving their best for the good of their pupils.

To the Superintending School Committee and Citizens of Canaan:

I have the honor of presenting to you my fourth annual report of the condition and progress of your schools.

With the exception of a part of the fall term and the epidemic of measles at the beginning of this winter term, the attendance has been very good. During the fall term there were several children who contracted severe colds which kept them out of school for several days. Just as the attendance had become normal a bursting forth of measles came upon the scholars to such an extent that for the good of all it was deemed wise to close the schools for two or three weeks.

I have visited every school several times during the year and have watched very carefully the work of pupils and teachers. The pupils are taking their work seriously and are striving hard to do well the work laid out for them so as to be able to pass into the next higher grade. I have noticed that the pupils are using better English both in and outside of the school room. If you could have witnessed, as I did a short time ago, a socialized recitation in Geography of our fourth grade, you would have been exceedingly pleased. You would have plainly seen that every pupil had done some thinking by the good English he used in asking and answering questions. You would also have seen that all had put time and thought in preparing the lesson. If you will visit any one of our schools you will see just such splendid work going on as I have mentioned.

You are no doubt asking what is the reason for all this display of interest. It is simply that the pupils and teachers are working together to get the best results possible. The scholars are working hard to understand clearly the lessons assigned and the teachers are doing all in their power to make the work of the day interesting and profitable to their pupils.

We have a right to be proud of our teachers because they are trained for their work and are teaching the grades for which they are best adapted. They not only are interested in their work but they are deeply interested to have every boy and girl from day to day grow intellectually and morally. These are the same teachers who were with us last year.

I believe that it would be very profitable to have either a school physician or a part time school nurse. By having either one of them we would be in a position to help ward off a great many of the severe colds that seem to be prevalent every fall among our pupils and to stop the onward march of other diseases. I trust that either a school physician or a school nurse may be given serious consideration at your town meeting.

TEXTBOOKS

We have purchased some new books and have bought books to replace the ones worn out. The amount of money appropriated is sufficient to keep our schools well supplied with good books and with those which are up to date. We have bought some new readers for all grades, but have not been able as we thought, to purchase music books for grades seven, eight and nine. We trust that we shall be able to purchase these books this next year.

REPAIRS

The Primary school building outside has been painted. In the fifth and sixth grade room a jacket of galvanized iron has been put around the stove. This helps to distribute the heat evenly around the room and also provides fresh air. In all of the class rooms of both village schools electric lights and slate blackboards have been installed.

In conclusion I wish to thank the citizens for the financial support which has made improvements possible; the members of the school committee for their efficient work in helping to plan these improvements; the teachers for faithfully carrying out the plans which have been laid out.

REPORT OF COOPERATIVE BLISTER RUST CONTROL FOR
THE TOWN OF CANAAN FOR SEASON 1928

To the Chairman and Board of Selectmen:

Gentlemen:

I herewith submit to you a report of the White Pine Blister Rust Control work in the town.

At the March Town Meeting 1928 this Town raised and appropriated the sum of \$150.00 for the control of the White Pine Blister Rust in the Town. This sum was used to employ one of the inhabitants as a Supervisor in this work, and to aid the owners in removing the Gooseberry and Current bushes. They being the cause of the spread of the disease. Of the sum raised \$24.50 was expended. The Cooperating Owners time amounting to \$11.60 making a total of \$36.10 expended. The Town Supervisor, Cooperating Owners and State Official furnished by that Department removed from 2354 acres 4473 Gooseberry and Currant bushes at a cost of \$0.011 per acre. Besides this area the State man examined and eliminated as Non-pine or none ribe land 3046 acres, bringing the total acreage to 5400 and the total cost per acre to \$0.006.

I wish to thank on behalf of the Federal and State Governments and myself, the Board of Selectmen, and Cooperating Owners for their fine assistance and cooperation in this needed project. The weather conditions was one of the most adverse ever experienced in this work. Out of 104 working days twenty-nine (29) percent were heavy rain. This caused late starting, late crops and caused haying to be carried on almost indefinitely. As you notice \$150.00 was appropriated for this purpose. Only \$24.50 was used leaving \$125.50 in your treasury to be used at your Selectmens' discretion. Therefore, it is seen that if you make this appropriation that you do not lose it if it is not used. This appears as a very fair proposition.

The Town Supervisor, Mr. Guy Nelson, should be complimented on his concientious effort under the adverse conditions, and in a work entirely new to him.

Hoping that this report meets favorable opinion and that the next Town meeting will give the article relating to the continuance of this needed work their helpful and needed support. There are 14 owners now in the Town that need protection.

Respectfully submitted,

JOHN MAC G. WHITE,

Blister Rust Control Agent.

Preserve This Report

A sufficient number of these reports have been printed to furnish every interested citizen with a copy. An effort has been made to get them into the hands of the voters in advance. It should be borne in mind that if copies are left at home there may not be a sufficient number at the hall to go around on town meeting day. This year or any year it is desirable for you to have a copy of the annual report as soon as issued. It is also important for you to preserve it and bring it with you town meeting day morning.

I have the honor of presenting to you my fifth annual report of the condition and progress of your schools.

The school census of April 1929 shows a total of 216 persons between the ages of five and twenty-one. This number is less than we had for the years 1927 and 1928.

From our staff of teachers two left in June. Mr. Lloyd P. Schillinger, who had taught for us for three years and who proved to be an excellent teacher, has secured a position in Gilbertville, Mass. Miss Florence Stinchfield, who had taught the Nason school successfully for two years, during the spring term of 1929 became Mrs. Herrin and I believe is now teaching in Palmyra.

Miss Mildred Sanborn, a graduate of Farmington Normal School of the class of 1929, has accepted the position to teach the Nason school. Miss Sanborn comes to us well recommended. I have visited her school several times and I find that she is developing into a fine teacher.

We secured the services of Mr. George W. Farnsworth to fill the position left vacant by the resignation of Mr. Schillinger.

During the fifteen weeks that Mr. Farnsworth has taught for us he has shown himself to be a very successful teacher. We are very sorry that he had to give up his position on account of a tendency to break down in health.

To fill the position which Mr. Farnsworth held we have secured the services of Mr. Edward A. Soper, a graduate of Castine Normal School of the class of 1928.

Misses Brown, Morrison and Weeks, who have taught for us so faithfully, are with us for another year. The faithful services they have been and are rendering I want them to know that the citizens of Canaan appreciate.

It is very gratifying to have a nurse who will come to our schools from time to time to examine our pupils, give talks on health and encourage them to perform health chores. The school nurse has been around and has examined our pupils in regard to the condition of their teeth, throat, sight, hearing, weight and posture. If a pupil is correct in all six of the things I have just mentioned he is what is called throughout the state, a six point pupil.

In our village schools we have eleven six point pupils whose names are as follows: William Harris, Leeman Kearney, Richard Salisbury, Edith Cooley, Blinn Strickland, Richard Goodrich, Alice Bean, Mary Foss, Bernard Foster, Oscar Sanders and Everett Salisbury. All of these pupils have a button they wear on which you can read the six things in which they are correct. The amount of money the town is willing to spend on a

nurse for the school children I am sure will bring about good results.

During the spring and fall terms, I have visited the schools about once a week. In all of my visits I have found every teacher faithfully doing his or her work and doing all in their power to inspire every pupil to do his best in order that he might get the most out of every lesson.

During the year so far our pupils have not been hindered from attending school by a run of measles and chicken-pox such as we had a year ago.

It is very gratifying to have so many of our grammar school graduates go to high school. The following is a list of those who are attending high school: June Nelson, Payson Foster, Raymond Hunt, George Curtis Foster, Mildred Fitzgerald, Afton Salisbury, Hesther Burrill, Esther Bean, Lillian Goodridge, Harold Bean, Isabelle Goodridge, Ethel Nelson, Herschel Freeman, and Iva Gleason.

TEXTBOOKS

With the money appropriated for books we have bought some new readers and arithmetics and have bought books to replace some which have been worn out. For the best good of any school a variety of books is very essential. We need very much reference books and I trust we shall be able to purchase some next year.

REPAIRS

From the repair appropriation \$160.00 has been paid for the electric lights which have been installed in the two village buildings, and \$100.00 has been spent enlarging the woodshed. \$35.22 has been paid out for work on the chemical toilets. The rest of the repair money has been paid out for minor repairs.

In conclusion I wish to thank the citizens for the vital interest taken in the welfare of the schools; the members of the school committee for their willingness at all times to make the schools the best possible; the teachers for their earnestness, willingness and devotion to their work.

Preserve This Report

A sufficient number of these reports have been printed to furnish every interested citizen with a copy. An effort has been made to get them into the hands of the voters in advance. It should be borne in mind that if copies are left at home there may not be a sufficient number at the hall to go around on town meeting day. This year or any year it is desirable for you to have a copy of the annual report as soon as issued. It is also important for you to preserve it and bring it with you town meeting day morning.
